

Dear Valued Aspirus Customer,

As you may already be aware, the American Taxpayer Relief Act of 2012 will bring dramatic changes to the reimbursement of Diabetes Test Strips on July 1, 2013. Due to these changes, your local supplier of test strips may be limited in the brands of meters it provides you; some providers have even made the decision to no longer provide test strip services to their customers.

Aspirus Keweenaw Home Medical is here to make this transition as easy as possible for you. By working with your primary care provider, pharmacist and diabetic counselor, we will provide the advice, expertise and quality products which you have come to expect from a leader in diabetes treatment.

After an extensive evaluation of approved brands, Aspirus Keweenaw Home Medical is proud to provide our customers with the Sunmark TRUEresult diabetes testing system. The TRUEresult system is easy to use, requires no coding, utilizes a very small sample size, provides results in as fast as four seconds, and has a 500 test memory. Most importantly, TRUEresult performs as well as many name brands which you may already be using.

In addition to giving you state-of-the-art testing results, as a world leader in the manufacture of medical supplies the TRUEresult system can be provided at a much lower cost than brand name products, lowering your insurance co-pays. For our uninsured customers who wish to pay cash for their strips, we are only charging \$15 per box of 50 strips.

Everyone at Aspirus understands that making changes may be difficult, which is why we would like to guide you through the necessary steps to ultimately bring you excellent quality at a lower price. Please contact your primary care provider or one of our diabetic education clinics and make an appointment. During your visit, our specialists will provide you with a free meter, training on how to use it, and answer all of your questions.

Having you as a customer is important to us, and keeping your business local is important to our community. Please call one of the specialists below to receive your free meter as soon as possible, as we will no longer be able to carry other brands after August 1st.
