Personal PRIMARY CARE

Taking care of ongoing wellness needs, sprains and fevers is a big part of what we do.

But so is making you smile, helping you feel comfortable, and sometimes, even coaxing a laugh out of a shy child.

Your Primary Care Provider plays a tremendous role in improving the way you live. It's why our experts in Family Medicine, Pediatrics, OB/GYN and Internal Medicine go out of their way to assure the best possible care – and company – for every member of your family.

- Pregnancy and coaching classes for eager moms and dads
- An innovative Newborn Intensive Care Unit to nurture premature and critically ill babies
- Warm, compassionate specialists for families going through high-risk pregnancies

All so you can breathe easier and love deeper.

The best things in life don't always come easy. Babies who need intensive care receive expert treatment at our Newborn ICU in Wausau. Once there, you can be with your little one every second of your stay.
