Memorial Health Center has been accredited without interruption since 1965. It is a 25-bed, not-for-profit, primary care health care organization and has been designated as a **Critical Access Hospital**. The organization includes: Memorial Nursing & Rehab Center, 101-bed skilled nursing facility; Country Gardens, a 28-unit RCAC assisted living complex; Cedar Court Apartments, a 24-unit senior low income housing complex; a retail pharmacy; two outpatient therapy and fitness centers; a public fitness center; and four primary care clinics.

We offer specialties not found in other 25-bed hospitals; our surgical suites are **utilized by 15 surgeons** ranging from cardiac procedures to total-joint orthopedics.

## Technologically Advanced

Memorial Health Center's network is fully **integrated** with Aspirus, Inc.

Our hospital utilizes **EPIC** for nurse order entry, Epicare Ambulatory **EMR technologies** at all clinics, and plans to implement bar coding technology throughout the organization.

Our lab and radiology systems are MISYS with interfaces to EPIC. **PACS** technology and digital mammography are employed, and our pharmacy enjoys the advantages of **EPIC RX**.

## Committed to Excellence

A **passion for excellence** and **quality-driven** would describe Memorial Health Center well. We've achieved **national recognition — twice —** for quality care and safety through an Ernest A. Codman Award (2005) and a National Rural Health Quality Award (2006).

Memorial Health Center's employees, medical staff and organizational representatives **pledge to always give** each patient the very best care every day. We extend this pledge to provide that same level of service to each family member and visitor who enters our doors.

It includes a commitment to always communicate, be accountable, and protect our patients' confidentiality, privacy and integrity.

Patient satisfaction has been and always will be **our high priority**.
